IS YOUR ePHI DATA SAFE?
ARE YOU HIPAA & HITECH COMPLIANT?

DAB Consulting provides your healthcare organization with a full range of services to meet all HIPAA & HITECH Rules and Regulations

Our consultants provide an initial **NO-COST** consultation to go over the services that we can provide your organization to secure both your I.T. infrastructure and protection of patient data. Our services include:

- Audit of Electronic and Physical Environment

- Review of Internal Documentation

- Post-Review Meeting to Go Over Findings and Provide Recommendations

- Implementation of Recommendations

- Random Compliance Checks

We also offer a full range of technology services including managed services, network consulting and design, electronic and physical security systems, and EHR/PM system design and management.
